

Thermo Fluids hires new Human Resources Manager, Tuggle

SCOTTSDALE, Ariz. (June 13, 2011) - [Thermo Fluids, Inc.](#) recently hired a new human resources manager, Amy Tuggle.

Tuggle brings to Thermo Fluids nearly a decade of experience in the human resources sector. At Thermo Fluids, she will oversee all aspects of human resources, including training, supporting employee growth and development, managing employee benefits, payroll and insurance plans, and communicating job opportunities within the local communities.

“We are excited to have Amy as part of our Thermo Fluids team. She offers a vast amount of experience and expertise in the human resources industry that will benefit Thermo Fluids as we continue to expand throughout the country,” said James Devlin, Thermo Fluids’ chief executive officer.

Prior to joining Thermo Fluids in May, Tuggle was the Human Resources Director at Taylor Morrison, Inc., the national builder of new homes and developments, where she directly managed payroll and benefits for more than 900 employees. At Taylor Morrison, Tuggle also provided consulting expertise to management and staff on employee relations and was able to decrease costs of the all-inclusive health and retirement plan by 25 percent while maintaining employee benefit levels and contribution rates. Before Taylor Morrison, Tuggle was with Foundation of Senior Living, Pulte Building Systems, Schaller Anderson, Inc., and Devereux Arizona.

Tuggle earned her Bachelor’s in Human Resource Management from Michigan State University and her Masters in Business Administration from the University of Michigan.

About Thermo Fluids

[Thermo Fluids Inc.](#), a closely held portfolio company of [CIVC Partners](#), is an environmental services company and the largest producer of commercial fuel oil from recovered used motor oil in the Western United States. Headquartered in Scottsdale, Ariz., the company collects and purchases used motor oil from a large number of companies across a diverse range of industries, such as quick-lube centers, auto dealerships, mining operations, and industrial companies. In addition to collecting used motor oil, the company provides a portfolio of environmental services as a “one-stop” solution to its customers. These other essential services include oily wastewater collection and processing, spent antifreeze collection and recycling, and used oil filter collection and disposal. Thermo Fluids reprocesses and recycles its collected

used motor oil into a commercial fuel product that is sold as an alternative energy source to a variety of industrial customers. Thermo Fluids has 29 facilities serving the Western United States. For more information, visit www.thermofluids.com.
