

Thermo Fluids Hires IT Director

SCOTTSDALE, Ariz. (November 17, 2011) – [Thermo Fluids, Inc.](#) hired Chuck Morehead as IT director for the growing environmental services company headquartered in Scottsdale. Morehead brings to Thermo Fluids 16 years of information technology and management experience.

“Proper application of technology is a competitive tool, and wielding it effectively for the benefit of the business is the primary job of the IT executive,” said CFO Mark Kuleck. “By integrating business needs with technology, effective IT teams continually contribute to the improvement of our bottom line.”

As the IT director, Morehead will supervise the company’s planning and management of information technology strategies. He will oversee company platforms, identify system enhancements and manage the company’s IT service provider relationships to fully support ongoing and future Thermo Fluids needs.

“Chuck’s vast technology and business management experience will have an immediate and positive influence on Thermo Fluids. He will serve the company and our customers as a leader in strategic planning, problem solving, project management and managing relationships, and we are proud to have him on our team,” said Thermo Fluids CEO James Devlin.

Prior to joining Thermo Fluids, Morehead was the information technology director at Philosophy Cosmetics, a luxury skincare and cosmetics manufacturer in Phoenix. In his time there, he led a management team, and efforts to continually improve infrastructure by implementing critical business intelligence tools, economically increasing redundancy and reducing risk. Earlier, he was the owner and senior information technology consultant at Nokuse Consulting, a boutique technology services firm, where he developed business and customer relationships, as well as managed critical information technology projects. Morehead graduated from The University of Tulsa with a Bachelor of Science in Computer Science and Oklahoma State University with a Master of Business Administration with a focus in Finance.

About Thermo Fluids

[Thermo Fluids Inc.](#), a closely held portfolio company of [CIVC Partners](#), is an environmental services company and the largest producer of commercial fuel oil from recovered used motor oil in the Western United States. Headquartered in Scottsdale, Ariz., the company collects and purchases used motor oil from a large number of companies across a diverse range of industries, such as quick-lube centers, auto dealerships, mining operations, and industrial companies. In addition to collecting used motor oil, the company provides a portfolio of environmental services as a "one-stop" solution to its customers. These other essential services include oily wastewater collection and processing, spent antifreeze collection and recycling, and used oil filter collection and disposal. Thermo Fluids reprocesses and recycles its collected used motor oil into a commercial fuel product that is sold as an alternative energy source to a variety of industrial customers. Thermo Fluids has 29 facilities serving the Western United States. For more information, visit www.thermofluids.com.
